Quality | Style | Choice

Tenon Partition Systems is a leading brand of high quality partitioning products. The Tenon range offers specifiers the entire spectrum of advanced partitioning systems. Whatever a building or refurbishment project demands, from straightforward sound or vision screening to a complex multi-functional specification, there is a Tenon solution tailored for any purpose.

Tenon products are designed and manufactured to meet the most exacting quality standards. Attractive and superbly finished, Tenon products have an excellent reputation established over many years. New ideas are continually researched and developed to ensure that Tenon remains at the forefront of the industry.

A team of Tenon Partition and Washroom specialists are available for in-the-field assistance. This is backed up by a continually developing network of Tenon Office Interior Centres nationwide, each with an extensive display of all products. In-depth training in project estimating and product installation is also available.

Included in our design and supply packages are wall coverings, door furniture, blinds, glazing and glass manifestation.

To complement and enhance the appearance of the product, a full array of Tenon door and joinery products are available together with a comprehensive range of ironmongery.

Scion

Tenon Scion combines the visual appeal and luxurious finish of natural wood with the flexibility and performance of a contemporary partition system.

The system is ideal for use in boardrooms and executive areas, but also affords a practical and durable solution for general office areas. Scion is manufactured from solid timber using an attractive range of sustainable hardwoods and other suitable timbers, allowing endless design and build options.

Built to a patented method of construction, Scion is simple to install whilst still meeting the most demanding of design briefs. Available in single and double glazed formats, the system can incorporate silicone glazing and integral Venetian and vertical blinds.

*Fire Rating: 30 and 60 minutes to BS 476 pt22
doors, glazing and solid modules including insulated glazing.
Sound Rating: From 34dB R_w to 52dB R_w on solid modules*

Ovation

Tenon Ovation is a state-of-the-art partition system designed to remain at the forefront of partition development well into the new millennium.

Ovation's styling provides gently radiused upright posts and door frames with a choice of recessed or flush skirting. Standard module widths are 1209mm. Glazed elements include an innovative integral transom feature providing a cost effective option to standard banded glazing.

An almost unlimited choice of RAL or BS colour finishes offer the potential to tailor installations to suit any corporate environment. Innovative Bi-element construction allows rapid on-site assembly without lengthy lead times. Ovation is fully demountable and re-locatable thanks to the push fit interpanel trims.

Fire Rating: 30 minutes to BS 476 pt22 doors, glazing and solid modules
Sound Rating: Solid elevations up to 43dB _{Rw}
Glazed elevations up to 42dB _{Rw}
Load Testing: Medium duty classification to BS 5234

*Creative use of Ovation
provides the building
blocks for today's
discerning client.*

crystal
tenon

A partition system that combines function with the clear, aesthetic benefits of silicone glazing

Crystal

Tenon Crystal is a glazed partition system that combines function with the clear, aesthetic benefits of silicone glazing. Using a minimum number of aluminium framing sections, Crystal provides an office divide that allows unhindered vision while still maintaining the privacy of individual offices.

Using either 10mm or 12mm toughened glass, depending on the height of the partition, glazing is achieved with the use of standard Tenon crystal clear glazing gaskets that remove the need for use of silicone around the perimeter of the system. Vertical silicone joints maintain the visual simplicity of the product, whilst crystal clear plastic jointing sections may be used to provide dry joints between glass panels.

fire & sound tenon

Fire & Sound

Tenon Fire & Sound is a highly versatile demountable and re-locatable office partition system designed for use in both general office and light industrial areas and is constructed from steel, aluminium and plastic profiles together with plasterboard panels.

The system offers a high degree of choice in design options coupled with high performance and aesthetics in both single and double glazed formats.

Standard module width is 1200mm. Maximum construction height is determined by the choice of upright framing sections and module type, reaching a maximum height of 4200mm using standard components.

Constructed with a galvanised steel sub frame, the aluminium framing sections are available in a silver anodised finish, or in a range of twelve standard colours.

Fire Rating: 30 and 60 minutes to BS 476 pt22 doors, glazing and solid modules.

Sound Rating: From 34dB R_w to 52dB R_w on solid modules

Tenon Fire & Sound is well established as one of the most popular performance partition systems available.

Tenon Finesse is a fully demountable and re-locatable multi-purpose aluminium partition system that is simple and quick to install.

Finesse

Tenon Finesse provides a cost effective and versatile range of partitioning for use in office environments where a simple, practical office divide is required.

The system is constructed from a range of aluminium upright posts and gypsum plasterboard faced honeycomb panels and is fully demountable and re-locatable.

Available in both single and double glazed formats, Finesse can accommodate 15mm and 25mm integral Venetian blinds and may be supplied in a silver anodised finish or a range of twelve standard colours.

Based around a standard module width of 1200mm, Finesse can be used to create partitions from barrier height up to 6000mm.

*Non Fire Rated: standard construction
Sound Rating: 29db R_w on solid & glazed modules*

wall store

tenon

Wall Store

Tenon Wall Store is a simple but very effective concept, which utilises ceiling height modular units to provide an integrated wall and storage partition. The system provides compact and streamlined storage which can be used as both free standing room dividers or as partition walls for cellular offices. It has been designed to integrate with and to complement the complete range of Tenon partitioning systems.

Demountable and re-locatable, Tenon Wall Store is an ideal solution for high density storage, as it optimises the space normally wasted above traditional freestanding units. The resultant saving in rent and rate costs can be substantial.

A wide choice of internal fittings are available, offering extensive permutations, from high density filing to audio-visual presentation systems.

Non Fire Rated

*Fully demountable
and re-locatable,
providing compact and
streamlined storage.*

operable walls

tenon

Operable Walls

The **Tenon Operable Wall** range offers an unrivalled choice of quality engineered moveable partitions that provide effective space management.
